# I Don't Wanna Be (a Barbie)

by Estibaliz Sadaba

"I think that maybe you don't consider my belly 'notorious' enough, but it's a hard issue for me to fight against the idea of the thin anorectic woman (K. Moss style) that is everywhere.

This was my response to the pressure I felt in the art world or even between my proper friends. So that's the context of the work."
